

ELS FOR AUTISM
2011 GOLF CHALLENGE

Every once in a while a cause resonates so profoundly that we need to take action. Optimal Solutions would like you to join us in raising money for the Els for Autism Foundation. Statistics have proven that Autism affects 1 in 110 people and their families.

The Els for Autism Golf Challenge is the latest facet of a catalytic philanthropic project started two years ago by Ernie and Liezl Els. After talking to a wide variety of experts they put together a business plan for a first of its kind Center of Excellence. The Center will combine education for ages 3-21 with medical and professional services, research and transition to adulthood. But the over-arching component that sets it apart is a multi faceted global digital learning platform that will deliver therapeutic best practices to children on the spectrum across the country and the world. We've actually got a proto-type learning program up and running now.

Please join us in helping bring awareness and funding to a cause that affects so many families today. TO donate please see the Optimal Teams listed below! Our goal is to get to \$10,000 for each team!

Optimal's Honorary Captain Danny!

Team Garofalo

Team Eldridge

Team Pecunia

Team Sliman
