

GET A QUALIFIED SAP SOLUTION – FAST JUMP-START YOUR WAY TO BETTER BUSINESS MANAGEMENT

Successful business management today depends on many factors. It's crucial that you make the right long-term strategic calls as well as the most effective daily operational decisions. Without the right software, hardware and service provider, you're likely to be on a losing track from the start.

Optimal Solutions Integration's preconfigured SAP Business All-in-One solutions are the clear choice. We provide comprehensive turnkey systems, already optimized for multiple HP configurations, all backed by our expert services that ensure superior results. You're quickly up and running – and running your business better than ever.

The Optimal Difference

Optimal is a new breed, mid market focused consulting company, dedicated to bringing the real-time enterprise to life through the implementation of SAP solutions. We provide a comprehensive offering of solutions and services, a proven methodology based on SAP technology, deep expertise, and a flexible on-demand onsite/offshore delivery model that accommodates the reality of business today.

A Complete Hardware, Software and Service Solution

Optimal specializes in helping you maximize ROI on your investments in SAP applications by planning, deploying and maintaining world-class solutions in a timeframe and at a cost that meet your expectations. And now, we can bring you the HP hardware solution configured to meet your exacting specifications in conjunction with industry-leading business management software customized for your operations.

RUN YOUR BUSINESS LIKE NEVER BEFORE!

COMPLETE PRE-CONFIGURED SAP BUSINESS ALL-IN-ONE SOLUTIONS – PRE-INSTALLED ON HP PROLIANT SERVER HARDWARE.

- Migrate legacy data quickly and reliably
- Minimize service and support costs
- Adapt and scale the solution as you grow
- Accelerate deployment with preconfigured business content
- Rapid time to value and low total cost of ownership

The pre-installed software stack includes:

- Optimal SAP Business All-in-One solution that is best suited for YOUR needs (see adjacent descriptions)
 - Includes SAP ERP and SAP Best Practices
 - SAP MaxDB™ database
- The following verified operating systems:
 - Novell SUSE Linux Enterprise Server
 - Microsoft Windows Server 2008
Microsoft Windows

This pre-installed software stack is also pre-tested, which means it has already been verified to run with the SAP MaxDB database and the Novell SUSE Linux Enterprise Server operating system or Windows Server 2008 Microsoft Windows operating system on the HP ProLiant server hardware.

With over a decade of experience that includes large global SAP implementations, Optimal is a partner you can trust to deliver on time and within budget. We offer qualified, proven solutions pre-configured based on SAP Business All-in-One:

OPTIMIZE FinanceOne

Delivers the integrated financial management functionality companies need to streamline reporting, mitigate risk, ensure compliance, and gain accurate, real-time visibility across internal and external business operations.

OPTIMIZE ServicesOne

Enables midsize professional services providers to improve operational efficiency, gain real-time project visibility, maximize resource utilization, improve service quality, increase revenue and sustain growth.

OPTIMIZE LodeOne

Provides the specialized industry functionality that midsize primary metals and mining companies need to plan, automate, monitor and streamline end-to-end business operations.

OPTIMIZE ForgeOne

Addresses fabricated metals companies' need to speed up product development, manage multiple product lines, automate order fulfillment processes, streamline supply-chain operations and improve customer satisfaction.

OPTIMIZE KPIOne

Brings comprehensive business intelligence and performance management reporting to companies looking for accurate, real-time enterprise-wide visibility for achieving operational excellence, sustainable growth, and a clear-cut competitive advantage.

HP CONFIGURATIONS OPTIMIZED FOR SAP SOFTWARE PERFORMANCE

Save time, resources and installation costs by having your Optimal SAP Business All-in-One solution pre-installed on your preferred HP ProLiant server configuration.

In today's data centers, server consolidation and cost reduction are top-of-mind concerns. With tough economic conditions and rising IT operations costs, the status quo won't do. If you're in a data center environment, you need to work aggressively to stop server and storage sprawl, reduce energy expenditures, and make better use of your valuable floor space – while responding faster to changing business requirements. HP ProLiant server configurations put you in the best position to win from all standpoints.

Choose the specific HP ProLiant configuration for your needs:

- HP ProLiant Server Standalone Tower
- HP ProLiant Server Rack Mount
- HP ProLiant BladeSystem
- HP ProLiant BladeSystem with Backup Server
 - Production System
 - Development/Test System
 - Management System

Predefined configurations address sizing, storage, backup, failover, redundancy, security, management, and network needs. All offerings are pre-tested to run the pre-integrated software stack – optimized for superior performance and cost savings.

OPTIMAL COMBINED SOLUTION STACK

Pre-Integrated Optimal Software Stack

Optimal Industry Best Practices

SAP ERP / SAP CRM

SAP MaxDB

SUSE Linux Enterprise
or Microsoft Windows

Pre-Configured HP Hardware Stack

Plus System Management,
Backup, Remote Services, etc.

OPTIMAL SERVICE ADVANTAGES

Whether you require an on-site team operating under tight deadlines, or an offshore team to accommodate budget constraints, we have the flexibility to create the Optimal SAP Business All-in-One solution for your needs. We even now offer a hosted solution option that allows your internal team to completely focus on other priorities as Optimal brings SAP software functionality directly to your organization's desktops.

Comprehensive SAP Solutions

Optimal offers unsurpassed SAP services - from functional to technical and from strategy to production support.

Give Us Two Weeks - We'll Make An Impact

Because we have more than a decade of experience with the largest global SAP sites, Optimal can make a difference in short order.

SAP Optimization Services

Some of the most challenging issues arise once you've gone live with any ERP solution. We've worked exclusively with the largest SAP implementations in the world to ensure you maximize ROI.

SAP Business Intelligence

SAP Business Objects business intelligence (BI) solutions provide comprehensive business intelligence functionality that can empower your users to make effective, informed decisions based on solid data and analysis.

OSI Offshore Development Center

Use Optimal's unique offshore model to customize SAP while maintaining the highest degree of quality and security.

Application Management Support for SAP

Let Optimal take over responsibility for maintenance and support so you can save money and focus on the core aspects of your business.

FlexChoice Advantage

Interested in an SAP Business All-in-One solution that Optimal hosts on its own servers while providing management, infrastructure maintenance and software upgrades? This approach can help you reduce up-front capital investments in acquiring IT infrastructure and reduce ongoing operating costs typically associated with managing software solutions. You can focus on your core business, products and services while leaving deployment in Optimal hands!
